

ECHOVANTAGE RELEASE NOTES

VERSION 2.19.00

NEW FEATURES

Billing Reports Access

- New icons were added to 837, CMS 1500, and Self Pay Statement jobs on the History tab.
- Clicking these icons allows you to run an 837 Audit Report, CMS 1500 bills, or Self Pay Statements.

Non-Client Forms

- FormDesignEHR forms not linked to Clients may be added to the application in Configuration>Setup>Forms
- At least one Category must be entered.
- Forms can then be linked under the Categories.
- Access can be set for each user group to access these forms under Configuration>User Groups>Menu Options

UPDATES

Ticket #	Description

BUG FIXES

Ticket #	Description
4721	ZIP does not get updated in Dr. First
4732	Scheduler does not display all events when a client and a staff are selected in the filter.
3912	Forms should refresh after save in order to display Sign/Send buttons
4500	Waterfall occurs even when there is no balance.
4713	Clients page should not redirect when navigating to an explicit route
4717	Double-clicking the Save button saves 2 signatures
4733	Scheduler client filtering does not take Event Templates into account.
4735	2000B SBR loop contains incorrect payer responsibility code for a waterfall payer
4737	Forms are refreshing if they are launched before page queries are completed.
4742	Client Profile Page refreshes after dropdown values are changed.
