

# ECHOVANTAGE RELEASE NOTES

VERSION 2.11.00

## NEW FEATURES

### Client Header

- Client Header has been redesigned
- Header defaults to collapsed
- A Memo may be entered in the Header
- If a Memo is added, the Memo icon displays as such when the Header is collapsed. A Memo with High Importance reflects an orange icon

### Staff Contrasts

A new people icon is available in the upper-right corner of the screen to allow users to select the staff members against whom they want to compare themselves.

### Signatures

- Progress Notes can now be signed.
- Records are now locked as read-only once they have a signature.

### Reports

- Data Sources are now being passed so that they do not need to be manually configured for each database.
- Branding images may be stored and will display on reports.

## UPDATES

Ticket #	Description
<b>3896</b>	Services now display on the form used to create them, even when a progress note for a given Service Definition has changed.
<b>3900</b>	A unique constraint was added to dbo.Forms.FormName
<b>3831</b>	Updates made to the Medications form
<b>3726</b>	Services.form and Services.targetid added to ensure that progress notes maintain a link to their Services.

## BUG FIXES

Ticket #	Description
<b>3793</b>	Error saving Predefined Treatment Plan Content
<b>3865</b>	Service Entry Status filter not working.
<b>4016</b>	Services and Client Diagnoses not available from the Timeline.
