

# ECHOVANTAGE RELEASE NOTES

VERSION 2.28

## NEW FEATURES

### Staff Credentials in Signatures

Staff Credentials now appear along with the Staff Name in form signatures.

- Credentials under Staff>Credentials where the “Include in Signature” is set to “Yes” will be used.
- If a Staff person has more than 3 Staff Credentials set to Include in Signature, the first 3 in alphabetic order will be used.

### Clinical Data

The following clinical forms have been moved from Clinician’s Desktop to EchoVantage. An administrator can grant access to the associated Timeline depictions under Configuration>Setup>VHR Timeline.

- BH Demographics (Clinical Category)
- PHQ-9 (Assessments Category)

## UPDATES

Ticket #	Description
5312	Staff Time Events now give an error message if the Description is too long. In addition, the Description length was increased from 20 characters to 50 characters.
5430	A confirmation message now displays when closing forms from the Timeline.
5604	The Documents upload size limit has been increased to 25MB.

## BUG FIXES

Ticket #	Description
5222	835 files that use carriage returns as Segment Terminators can now be uploaded.
5287	Users can now delete a Service that has had a Progress Note if the Progress Note has been deleted.
5366	The Defined Filters Claims Management filter is now working properly.
5455	Services and Remittances screen no longer need to be refreshed in order to display changes when marking records as Ready, or when Deleting.
