XML Order	PPS Data Element	Capture Location	Table Name	Column Name	Notes
1	submitter_organization_id	State Reporting>Create>PPS>Organization Id	N/A	N/A	Entered each time a PPS xml file is created.
2	submission_date	N/A	N/A	N/A	This date defaults to the date the xml file is created.
3	mci_flag	State Reporting>Create>PPS>Export Files - MCI Clearance File checkbox selected	N/A	N/A	Reports as Y when MCI Clearance File checkbox is selected.
4	number_of_records_transmitted	N/A	N/A	N/A	Calculated during xml file creation.
5	record_id	N/A	dbo.Clients	id	
6	recipient_id	Clients>Profile>Unique State Identifier	dbo.Clients	UniqueStateIdentifier	This column stores the state assigned MCI number. If this column is blank, the Client is included when creating an MCI Clearance file. Importing an MCI file updates the column when the record_id matches the dbo.Clients id.
7	recipient_first_name	Clients>Profile>First Name	dbo.ClientNames	FirstName	
8	recipient_middle_name	Clients>Profile>Middle Name	dbo.ClientNames	MiddleName	
9	recipient_last_name	Clients>Profile>Last Name	dbo.ClientNames	LastName	
10	recipient_suffix_name	Clients>Profile>Suffix	dbo.ClientNames	Suffix	
11	recipient_birth_date	Clients>Profile>Birth Date	dbo.Clients	BirthDate	
12	social_security_number	Clients>Profile> Social Security #	dbo.Clients	SSN	
13	gender	Clients>Profile>Gender At Birth	dbo.Clients	GenderAtBirth	If GenderAtBirth is Null, then the value in the Legal Gender field is reported. If both are NULL, the job throws an error.
14	local_client_id	N/A	dbo.Clients	ClientCode	Created when Client is initially added in EchoVantage. Note that PPS reporting only allows a maximum of 14 characters. The ClientCode column in EchoVantage is varchar(15).

XML Order	PPS Data Element	Capture Location	Table Name	Column Name	Notes
1	submitter_organization	State Reporting>Create>PPS>Organization Id	--	--	Entered each time a PPS xml file is created.
2	submission_date	N/A	dbo.WIPPSMH	SubmissionDate	This date defaults to the date the xml file is created. If this column has a value or values, the most recent is displayed in the *Last Submit Date* field on the MH Admission form.
3	mci_flag	N/A	N/A	N/A	Defaults to N when MCI Clearance File is not selected in the Export files section of the State Reporting screen.
4	number_of_records_transmitted	N/A	N/A	N/A	Calculated during xml file creation.
5	record_id	N/A	dbo.Services	id	
6	recipient_id	Clients>Profile>Unique State Identifier	dbo.Clients	UniqueStateIdentifier	This field stores the state assigned MCI number.
7	provider_number	provider_number	Provider NPI per Service or NPI Mapping		The Service Provider's NPI is used unless an NPI mapping overrides it.
8	spc	spc	Configuration>Services/Payers>Service Definitions>Profile>Other Field	dbo.ServiceDefinitions	ServiceCategory
9	unit_or_basis_for_measurement_code	N/A	dbo.WippsSpcUnits	Unit	The Unit of the SPC Service Defintion of the reported Service is included in the XML file. This is not captured on a form or within the UI.
10	quantity	N/A			Calculated value using the Service duration and the Service Definition's *Unit Calculation* and *Minutes Per Unit* values.
11	recipient_first_name	Clients>Profile>First Name	dbo.ClientNames	FirstName	
12	recipient_middle_name	Clients>Profile>Middle Name	dbo.ClientNames	MiddleName	
13	recipient_last_name	Clients>Profile>Last Name	dbo.ClientNames	LastName	
14	recipient_suffix_name	Clients>Profile>Suffix	dbo.ClientNames	Suffix	
15	recipient_birth_date	Clients>Profile>Birth Date	dbo.Clients	BirthDate	
16	social_securty_number	Clients>Profile>Social Security #	dbo.Clients	SSN	
17	gender	Clients>Profile>Gender At Birth	dbo.Clients	GenderAtBirth	If GenderAtBirth is Null, then the value in the Legal Gender field is reported. If both are NULL, the job throws an error.
18	street_address1	Clients>Contact Info>Edit Client Contact Information>Address	dbo.ClientAddresses	Address1	

XML Order	PPS Data Element	Capture Location	Table Name	Column Name	Notes

76	first_contact_date	Clients>Timeline>WI MH Episode>WI PPS AODA Assessment Form>CDT First Contact Date *displayed only	dbo.WIPPSAODA	HistoricalFirstContactDate	If a value exists in HistoricalFIrstContactDate, it is reported in the *first_contact_date* data element. If this value is NULL, *first_contact_date* is not reported.
	episode_id	Not reported			Not Required.
	family_id	Not reported			Not Required.

XML Order	PPS Data Element	Capture Location	Table Name	Column Name	Notes
	local_client_id	Not reported			Not Required.
	spc_delivery_year_month	Not reported			Not Required.
	spc_review_due_year_month	Not reported			Not Required.
	service_worker_id	Not reported			Not Required.
	target_group	Not reported			Not Required.
	telephone_number	Not reported			Not Required.
	worker_id	Not reported			Not Required.

XML Order	PPS Data Element Name	Capture Location	Table Name	Column Name	Notes
1	submitter_organization_id	State Reporting>Create>PPS>Organization Id	--	--	Entered each time a PPS xml file is created.
2	submission_date	N/A	dbo.WIPPSCORE	SubmissionDate	This date defaults to the date the xml file is created. If this column has a value or values, the most recent is displayed in the *Last Submit Date* field on the CORE Admission form.
3	mci_flag	N/A	N/A	N/A	Defaults to N when MCI Clearance File is not selected in the Export files section of the State Reporting screen.
4	number_of_records_transmitted	N/A	N/A	N/A	Calculated during xml file
5	record_id	N/A	dbo.Services	id	
6	recipient_id	Clients>Profile>Unique State Identifier	dbo.Clients	UniqueStateIdentifier	This field/column stores the state assigned MCI.
7	provider_number	Provider NPI per Service or NPI Mapping			The Service Provider's NPI is used unless an NPI mapping overrides it.

XML Order	PPS Data Element Name	Capture Location	Table Name	Column Name	Notes
8	spc	Configuration >Services/Pay ers>Service Definitions>P rofile> Other Field	dbo.ServiceDefinitions	ServiceCategory	
9	recipient_first_name	Clients>Profil e>First Name	dbo.ClientNames	FirstName	
10	recipient_middle_name	Clients>Profil e>Middle Name	dbo.ClientNames	MiddleName	
11	recipient_last_name	Clients>Profil e>Last Name	dbo.ClientNames	LastName	
12	recipient_suffix_name	Clients>Profil e>Suffix	dbo.ClientNames	Suffix	
13	recipient_birth_date	Clients>Profil e>Birth Date	dbo.Clients	BirthDate	
14	social_security_number	Clients>Profil e>Social Security #	dbo.Clients	SSN	
15	gender	Clients>Profil e>Gender At Birth	dbo.Clients	GenderAtBirth	If GenderAtBirth is Null, then the value in the Legal Gender field is reported. If both are NULL, the job throws an error.

XML Order	PPS Data Element Name	Capture Location	Table Name	Column Name	Notes
16	street_address1	Clients>Contact Info>Edit Client Contact Information> Address	dbo.ClientAddresses	Address1	
17	street_address2	Clients>Contact Info>Edit Client Contact Information> Address 2	dbo.ClientAddresses	Address2

19	state_abbreviation	Clients>Contact Info>Edit Client Contact Information> State	dbo.ClientAddresses	State	
20	zip_code	Clients>Contact Info>Edit Client Contact Information> Zip + Zip Ext.	dbo.ClientAddresses	Zip + ZipExtension	Reports either a 5 or 9-digit zip code.

XML Order	PPS Data Element Name	Capture Location	Table Name	Column Name	Notes
21	client_char_1	Clients>Timeline>WI Core Episode>Core Admission Form>Client Characteristics 1	dbo.WIPPSCORE	Characteristic1	The drop-down list for client_char_1,2,3 is validated against the values in the *WI PPS Client Characteristics* Defined List.
22	client_char_2	Clients>Timeline>WI Core Episode>Core Admission Form>Client Characteristics 2	dbo.WIPPSCORE	Characteristic2	Job validates that client_char_1 is not Null.
23	client_char_3	Clients>Timeline>WI Core Episode>Core Admission Form>Client Characteristics 3	dbo.WIPPSCORE	Characteristic3	Job validates that both client_char_1,2 are not Null.
24	county_of_responsibility	Clients>Timeline>WI Core Episode>CORE Admission	dbo.WIPPSCORE	CountyofResponsibility	The drop-down list contains the values from the *WI PPS Counties* Defined List.

XML Order	PPS Data Element Name	Capture Location	Table Name	Column Name	Notes
25	target_group	Clients>Timeli ne>WI Core Episode>COR E Admission>Ta rget Group	dbo.WIPPSCORE	TargetGroup	The drop-down list contains the values from the *WI PPS CORE Target Groups* Defined List.
26	spc_start_date	Service Entry	dbo.Services	StartDate	The Start Date of the first Service in the CORE SPC Enrollment.
27	spc_end_date	Clients>Timeli ne>WI CORE Episode>SPC Enrollments> End Date	dbo.WIPPSSpcEnrollments	EndDate	Either the End Date entered on the SPCEnrollments form for the associated CORE Epsiode OR the End Date of the reporting period.
28	unknown_race	Clients>Profil e>Race Grid	dbo.ClientRaces	Race	If the *Race Refused* checkbox is selected, the PPS job throws an Error for missing race_code1. If EV code value *2131-1 Other Race* is selected in the grid, this element reports as Y and no other race elements report.
29	race_code1	Clients>Profil e>Race Grid	dbo.ClientRaces	Race	Priority 1. **See Release Notes for how values are translated and how reporting order is established.**
30	race_code2	Clients>Profil e>Race Grid	dbo.ClientRaces	Race	Priority 2.

XML Order	PPS Data Element Name	Capture Location	Table Name	Column Name	Notes
31	race_code3	Clients>Profile>Race Grid	dbo.ClientRaces	Race	Priority 3.
32	race_code4	Clients>Profile>Race Grid	dbo.ClientRaces	Race	Priority 4.
33	race_code5	Clients>Profile>Race Grid	dbo.ClientRaces	Race	Priority 5.
34	ethnic_hispanic_latino_flag	Clients>Profile>Ethnicity Grid	dbo.ClientEthnicities	Ethnicity	Job validates that at least one ethnicity element is Y.
35	ethnic_nonhispanic_latino_flag	Clients>Profile>Ethnicity Grid	dbo.ClientEthnicities	Ethnicity	Job validates that at least one ethnicity element is Y.
36	ethnic_unknown_flag	Clients>Profile>Ethnicity Refused	dbo.Clients	DeclinedEthnicity	Job validates that at least one ethnicity element is Y.
37	county_of_residence	Clients>Timeline>WI Core Episode>CORE Admission	dbo.WIPPSCORE	CountyOfResidence	The drop-down list contains the values from the *WI PPS Counties* Defined List.
38	start_date	Clients>Timeline>WI Core Episode	dbo.Episodes	StartDate	The open CORE Episode Start Date.
39	closing_date	Clients>Timeline>WI Core Episode>End Date	dbo.Episodes	EndDate	The End Date and Reason can also be populated on the *Clients Episode* tab.

XML Order	PPS Data Element Name	Capture Location	Table Name	Column Name	Notes
40	closing_reason_code	Clients>Timeline>Wi Core Episode>End Reason	dbo.Episodes	End Reason	A custom mapping form is installed by the Acorn with current default values for MH and CORE modules. If closing_date is *Not Null* then this element is required. This reason can also be populated on the *Clients Episode* tab.
	diagnosis_code	Not reported			Removed. Element is not required & State does not yet accept ICD-10 codes for CORE.
	episode_id	Not reported			Not Required.
	local_data_dsc	Not reported			Not Required.
	related_family_id	Not reported			Not Required.
	spc_review_date	Not reported			Not Required.
	telephone_number	Not reported			Not Required.
	worker_id	Not reported			Not Required.
