

ECHOVANTAGE RELEASE NOTES

VERSION 3.26-HOTIFX1

IMPROVEMENTS

Families Search Performance

The search function in the *Families* main menu and the *Clients > Family* were updated to accommodate searching large numbers of families. The search now only returns the top matches instead of the entire list, significantly reducing loading time.

BUG FIXES

Ticket #	Case #	Description
EV-784	2832	An issue was reported where some adjustments (most often contractual adjustments and paid by other credits for the first Payer's payment) to Waterfall Charges were not Finalized even though the associated Charges were finalized and set to Active as expected. Updates were made so that this status is now set during job finalization instead of job creation. Now adjustments and paid by other credits are Finalized as expected, just like the associated Charge.
