# OH BH REDESIGN ACORN RELEASE NOTES

VERSION 1.0.5   REQUIRES ECHOVANTAGE VERSION 3.25 OR HIGHER

OVERVIEW

The display name of the Charge Customization function of the Ohio BH Acorn was updated to *Ohio BH Charge Customization*. No additional configuration should be necessary in EchoVantage. When the update is complete, navigate to *Configuration > Services/Payers > Payers > Processing* to ensure that both *Ohio BH Redesign* and *Ohio BH Charge Customization* values are displayed for the applicable Payers. If either is not displayed, be sure to select it from the drop-down list and then *SAVE* the changes. Both values must be selected for the Acorn to work properly.

INSTALLING THE ACORN

The *install-acorn-1.0.5.sql* script updates the *Ohio BH Redesign SERVICE_PROCESSING* and *837P* records in the dbo.AcornRegistrations table to version 1.0.5.RELEASE. SaaS-hosted customers should send a request via the Support portal to authorize the update.

UPDATES

Ticket #	Description
EV-1130	The Charge Customization Acorn Display Name was updated to *Ohio BH Charge Customization.* Previously, both the Service Processing and Charge Customization Acorns had the same Display Name, *Ohio BH Redesign.*
