

ECHOVANTAGE RELEASE NOTES

VERSION 3.36-HOTFIX 2

BUG FIXES

Remittance Search Returning Too Many Rows

After investigating intermittent performance issues with one of our services, it was determined that the legacy Remittance page could return too many rows, even with filters in use. As a result, the application became unresponsive. This issue was resolved by limiting the query results to 10,000 records. If the expected result is not returned, additional filters should be used to further refine the results list.
