

Version 1.0.183.RELEASE

December 21, 2020

WI PPS STATE REPORTING RELEASE NOTES

WI PPS VERSION 1.0.183.RELEASE

REQUIRES ECHOVANTAGE VERSION 3.18 OR HIGHER

OVERVIEW

An update was made to the MH Assessment form to copy forward data from the previous assessment, if one exists, for all fields with a red asterisk. A stored procedure, *dbo.sp_copy_MH_Assessment* is used to move the data forward. If any of these fields are edited on the new form, they revert to the copied values on save. The red-asterisk fields can only be edited on the first assessment recorded for a given Mental Health Episode.
