WI PPS STATE REPORTING RELEASE NOTES

WI PPS VERSION 1.0.186.RELEASE   REQUIRES ECHOVANTAGE VERSION 3.20 OR HIGHER

OVERVIEW

Improvements were made to the PPS State Reporting Acorn to allow the entry of AODA and CORE Services before the CreateDate of the Assessment/Admission form and remove the *Review Date* field from the MH Assessment form.

INSTALLATION

The *install-wi-pps-1.0.186.RELEASE.sql* script updates the PPS and MCI Upload records in the dbo.AcornRegistrations table to version 1.0.186.RELEASE. The Acorn version is also updated in the *Help > About* page accessed from the *Help* icon on the blue application information bar.

IMPROVEMENTS

Entering Services

When Services are entered, the validation no longer looks to ensure that the Service Start Date is on or after the CreateDate (AODAD and CORE) or the ReportDate (MH). Now CORE and AODA Services may be created if the Client has the appropriate PPS Episode and any assessment form. MH Services may be created if the MH Episode has an Assessment where the Commitment Status Review Date is after the Service Date. These changes allow the Assessment/Admission form and Service to be entered after the date is provided.

Removed MH Review Date

The Review Date field of the MH Admission form and the ReviewDate column of the dbo.WIPPSMH table were removed. The Commitment Status Review Date is now used in its place.

UPDATES

FW-11841	As a user I need to be able to enter AODA and CORE Services prior to the createdate of the Assessment/Admission form.
FW-11893	Remove Review Date from MH.
