

# WI PPS STATE REPORTING RELEASE NOTES

WI PPS VERSION 1.0.188.RELEASE

REQUIRES ECHOVANTAGE VERSION 3.22 OR HIGHER

## OVERVIEW

This release addresses an issue that caused MH PPS jobs to fail.

## INSTALLATION

The *install-wi-pps-1.0.188.RELEASE.sql* script updates the PPS and MCI Upload records in the `dbo.AcornRegistrations` table to version 1.0.187.RELEASE. The Acorn version is also updated in the *Help > About* page accessed from the *Help* icon on the blue application information bar.

## IMPROVEMENTS

### MH PPS Jobs Failing to Finalize, EV-249

An issue was reported that some PPS jobs were failing to finalize. The problem was specific to the MH module and found to be due to some diagnoses being incorrectly flagged as duplicates. The following updates were made to the MH validation trigger to address the issue.

- Added record id to diagnoses grouping so that only diagnoses for the same record are validated.
- Disabled the validation from running when the `SubmissionDate` is set on finalized.

Now when multiple Clients with the same diagnosis are included in the report, Finalize completes without error.
