

WI CUSTOM BILLING ACORN RELEASE NOTES

WI-BUNDLING – VERSION 1.0.41

REQUIRES ECHOVANTAGE VERSION 3.25 OR HIGHER

OVERVIEW

Updates were made to the WI Custom Billing Acorn to use the latest Acorn interfaces. No changes were made to the custom functionality. The Acorn must be reinstalled once the upgrade to EchoVantage v3.25 is complete; no other configuration is necessary. A reported bug was also addressed.

INSTALLING THE ACORN

The *install-wi-bundling-1.0.41.sql* script updates the *WI Bundling Customization* and the *WI 837P Customization* records in the *dbo.AcornRegistrations* table to version 1.0.41. SaaS hosted customers should send a request via the Support portal to authorize the update.

UPDATES

Ticket #	Description
EV-432	Refactor all Acorns to use the same customize charge function and update the Acorn interfaces.

BUG FIXES

Ticket #	Case #	Description
EV-712	2566	A bug was fixed where the Acorn job failed when a staff has multiple degrees with <i>Include in Signature</i> set to "No". Now, staff with multiple credentials do not cause the job to fail.
