

WI PPS STATE REPORTING RELEASE NOTES

WI PPS VERSION 1.0.190.RELEASE

REQUIRES ECHOVANTAGE VERSION 3.22 OR HIGHER

OVERVIEW

In this release, updates were made to Diagnosis reporting to include a check that the form record was not previously reported.

INSTALLATION

The *install-wi-pps-1.0.190.RELEASE.sql* script updates the PPS and MCI Upload records in the `dbo.AcornRegistrations` table to version 1.0.190.RELEASE. The Acorn version is also updated in the *Help > About* page accessed from the *Help* icon on the blue application information bar.

IMPROVEMENTS

Diagnosis Reporting, EV-553

For Diagnosis reporting, an update was made to prevent Diagnoses from being re-reported. Now a check was added to see if the form record id exists in the History table. If the record was previously reported, the Principal Diagnosis is excluded. If the form record was not reported, the Principal Diagnosis is included.
