WI PPS STATE REPORTING RELEASE NOTES

WI PPS VERSION 2.0.12.RELEASE   **REQUIRES ECHOVANTAGE VERSION 3.22 OR HIGHER**

OVERVIEW

In this release, updates were made to the AODA Discharge Form, two alerts were updated to not included end-dated Staff, and an SPC rounding bug was addressed.

INSTALLATION

The *install-wi-pps-2.0.12.RELEASE.sql* script updates the PPS and MCI Upload records in the dbo.AcornRegistrations table to version 2.0.12.RELEASE. The Acorn version is also updated in the *Help > About* page accessed from the *Help* icon on the blue application information bar.

IMPROVEMENTS

WI PPS AODA Discharge Form Changes, EV-908

The following changes were made to the WI PPS AODA Discharge form.

- Closing status = A was updated to say *(frequency of use during 30 days prior to discharge)*
- Closing status = F was removed
- Closing status = AR now precedes Number of Arrests
- Closing status = LA precedes Living Situation

PPS Episode Missing Assessment Alert, EV-953

The PPS Episode Missing Assessment Alert was updated so that end-dated staff no longer receive the alert. All active (non-end-dated) Staff receive this alert based on Role.

PPS MH Data Update Review Alert, EV-954

Staff who are end-dated on a Client's MH Episode no longer receive the PPS MH Data Update Review Alert. All active (non-end-dated) Staff receive this alert based on Role.

BUG FIXES

SPC Not Rounding Up Correctly, EV-1330

An issue was reported where a 6-minute Service was reported as '0' instead of rounding up as indicated on the Service Definition configuration. This behavior was due to the WiPPS custom code rounding to the nearest quarter and overriding the Service Definition. Per a follow-up discussion with the agencies, the WiPPS override is kept in place but now if the Service minutes are closer to '0' than '15', a quantity of '.1' is reported.
